

Habitat for Humanity®

Saint Louis

BUILDERS' CLUB TEAMS

A BUILDERS' CLUB TEAMS is a unique way to get your organization involved with Habitat for Humanity Saint Louis. Your group will benefit from an informal team building experience, doing something they probably have never done before - build a home! The team will have to communicate, cooperate and work together in a new way. What better way to forge a bond with coworkers and clients than to spend a day hammering and working toward a common goal?

Habitat for Humanity Saint Louis will provide skilled construction staff or volunteers to train your team and supervise construction. All tools, safety equipment and building materials needed for the day will be provided.

Builder Level	Number of Volunteers	Donation
Two-Story Team	11-15	\$2,000
One-Story Team	up to 10	\$1,500

Builders' Club Teams Includes:

- A day of building on a Habitat for Humanity Saint Louis build site (construction training provided).
- Your group's day of service noted on our website on the Builders' Club Team webpage.
- Designated construction leadership for your group.
- "Habitat 101" — an opportunity for Habitat Saint Louis staff to share general information about the organization and homebuyers, details of partnership, and/ or individual volunteer opportunities at your organization/place of business.

If your group is larger than 20 volunteers, please contact us to discuss available options. No previous construction experience is necessary, just willingness for your group to work together as a team to help your community.

Questions? Contact Resource Development Manager, Harper Zielonko, at harper@habitatstl.org or 314-371-0400.

Keystone Community Partnership

Working together to build a St. Louis where everyone has a decent place to live.

The Keystone Community Partnership was formed as a way to recognize those individuals, corporations, foundations, and community organizations who generously support HFHSL with annual financial or in-kind contributions. Just as a keystone at the apex of an arch allows the arch to be self-supporting, Keystone members provide the vital support needed for HFHSL to continue building a St. Louis where everyone has a decent place to live.

The chart below highlights both the engagement and marketing benefits that come with an investment in HFHSL. Volunteer opportunities can be spread across multiple build dates, sites, and events in line with the interests of the donor. Here at HFHSL we pride ourselves on providing an exemplary engagement experience, so if the benefits below do not quite meet your needs, we would be happy to work with you to craft a truly unique Habitat experience. Please reach out the Harper Zielonko at harper@habitatst.org (314-371-0400) to learn more.
